Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.3 Simplicity of the system

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Simplicity of the system
Description	I found the system easy to use.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.4 Required support

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Required support
Description	I think I would need the help of a tech-savvy person to use the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.5 Integration of functions

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Integration of functions
Description	I found the various functions of the system were well integrated.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.6 Inconsistencies

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Inconsistencies
Description	I think the system contained too many inconsistencies.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.7 Assessment of the appropriation of the operation

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Assessment of the appropriation of the operation
Description	I can imagine that most people learn how to use the system very quickly.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.8 Complexity of the system

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Complexity of the system
Description	I found the system very cumbersome to use.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.9 Safety during use

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Safety during use
Description	I felt very safe using the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data

Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.10 Learning effort

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Learning effort
Description	I had to learn a lot before I could start using the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.11 Fun in use

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Fun in use
Description	I enjoy using the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.12 Response time of the system

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Response time of the system
Description	The system reacts quickly.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.13 technical problems

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	technical problems
Description	The system could be used without any technical problems.

Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.14 Type of technical problems

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Type of technical problems
Description	What technical problems have you encountered? Displayed if u641_sus_13= “tend to disagree“ or “strongly disagree“
Data type	VARCHAR(255)
Scale niveau	free text
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_2 (Missing raw data; Insufficient quality)

12.3.1.3.15 Navigation

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Navigation
Description	Navigation within the system is simple.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.16 Layout

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Layout
Description	I find the layout visually appealing.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.17 Layout assessment

Type	Variable

Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Layout assessment
Description	What do you find unappealing? Displayed if u641_sus_16= “tend to disagree“ or “do not agree at all“
Data type	VARCHAR(255)
Scale niveau	free text

12.3.1.3.20 Amount of information

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Amount of information
Description	The amount of information on system utilisation is appropriate.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.21 What was too much/too little?

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	What was too much/too little?
Description	What was too much/too little? Is displayed if u641_sus_20= "tend to disagree", "do not agree at all"
Data type	VARCHAR(255)
Scale niveau	free text
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_2 (Missing raw data; Insufficient quality)

12.3.1.3.22 Interest of other people in the system

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Interest of other people in the system
Description	I can imagine that other people would also like to use the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.23 Other people's reasons for (rather) not wanting to use the system

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Other people's reasons for (rather) not wanting to use the system
Description	Why do you think that other people would (rather) not like to use the system? Displayed if u641_sus_22= "tend to disagree", "do not agree at all"

12.3.1.3.24 Comprehensibility of statistics

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Comprehensibility of statistics
Description	The statistics in the system are easy to understand.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data

Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.25 Subjective relevance of the statistics module

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Subjective relevance of the statistics module
Description	The statistics module is an important part of the module for me.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.26 Opinion poll on the name PIA

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Opinion poll on the name PIA
Description	I find the name PIA suitable/appropriate for the system.
Data type	TINYINT
Scale niveau	ordinal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_5 (strongly disagree; somewhat disagree; neutral; somewhat agree; strongly agree; missing raw data; insufficient quality)

12.3.1.3.27 Opinion poll on the PIA logo

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	User acceptance
Title	Opinion poll on the PIA logo
Description	I find the PIA logo appealing.
Data type	TINYINT

12.3.1.4 State of health

Weekly questionnaire to determine the participants' state of health.

12.3.1.4.1 Potential illnesses in the last week

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	State of health
Title	Potential illnesses in the last week
Description	Have you had a new illness in the last 7 days from Monday (date) to Sunday (date)?
Data type	TINYINT
Scale niveau	nominal
Active since	26/02/2024
Approval	Quality-assured data
Option list	l3_pia_collected_3 (yes; no; missing raw data; insufficient quality)

12.3.1.4.2 Illness reports from the last week

Type	Variable
Superordinate	Level-3 data ZIFCO/PIA, p. 4902 (Examination)
In subsection 2	State of health
Title	Illness reports from the last week
Description	Have you already spontaneously reported all illnesses that occurred in the week from (date) to (date)?
Data type	TINYINT

12.4.1.1.2 [Length and width of the hand]

The following questions relate to the description of your tattoos. We ask you to use the area of your hand as a reference for the unit of measurement. This unit of measurement is practical because it has a direct relation to the body surface and is also much quicker than measuring with a tape measure, which not everyone has to hand. So that we know how big your hand is, we first ask you to measure it as shown in the illustration opposite with your thumbs together. If necessary, you can use the ruler on the last page of this questionnaire.

Type	Project
Superordinate	other projects, p. 4761 (Program)
Title	Level-3-Project 049 Neck circumference Kiel
Name	Level 3 Project 049 Neck circumference Kiel
Description	Neck circumference is a simple, quick and non-invasive anthropometric parameter to measure. It has already been investigated in some studies as a surrogate parameter for upper body adipose tissue and showed associations with cardiovascular and metabolic risk factors. Respiratory, urological and sleep-related diseases also seem to be associated with the neck circumference. In a level-3-project at the NAKO study centre in Kiel, the neck circumference of a large proportion of NAKO participants was measured during the baseline examination according to a standardised procedure.

Type	Examination (unit)
Superordinate	Corona Project, p. 5043 (Project)
Name	Second Corona Special Survey
Title	Second Corona Special Survey of the NAKO
Description	Second special corona survey. Data collection between 27/09/2022 and 08/02/2023, adjusted according to QA report NAKO-764. Questionnaires that were not completed by the participants themselves (see variable d_co2_t1) as well as data sets with a large number of unanswered question complexes (see variables d_co2_miss_sec and d_co2_miss_all) or implausible information on age and gender (see variables d_co2_val_gebdat, d_co2_val_sex and d_co2_val_agesex) should be excluded from analyses, as the assignment of the information to the respective participant may not be correct. Some potentially implausible data (e.g. body weight, duration of hospital stays, frequency of postponed/cancelled doctor/hospital appointments or time intervals between infections or vaccinations) were not subsequently corrected.

Type	Examination (unit)
Superordinate	Level 3 Project 011 Parocard/033 Microtooth, p. 5393 (Project)
Name	Parocard dental examination
Title	Parocard Dental examination
Description	L3 Parocard dental examination (L3 project 011). If baseline and calibration baseline data are available for a participant, the data set with higher completeness should be used in each case. In four cases, an implausible value in relation to the baseline was documented for the dental status in the calibration examination. This implausibility was not corrected. Loosening degrees 0 and 1 on non-crowned teeth with an increased clinical attachment level were checked as far as possible using the scan and corrected for implausibility if necessary. Derived variables in l3_011_zmu_abg.

i) Baseline examination

Type	Data element
Unique identifier	u1_zmu_lock_23

Options of the option list "zmu_lock":

Key	Identifier	Count in: Baseline examination	Missing
0	0: no abnormal mobility	~ 500	No
1	1: just palpable and perceptible, barely visible horizontal mobility up to 1mm deviation from the normal position	< 10	No
2	2: clearly visible and palpable horizontal loosening over 1mm	< 10	No
3	3: very clearly visible and palpable horizontal and vertical mobility - recognisable even without palpation, as loosening already occurs with cheek and tongue pressure	0	No
-9	NA: implausible value	0	Yes

ii) Calibration study

Type	Data element
Unique identifier	ku1_zmu_lock_23

Options of the option list "zmu_lock":

Key	Identifier	Count in: Calibration study	Missing
0	0: no abnormal mobility	0	No
1	1: just palpable and perceptible, barely visible horizontal mobility up to 1mm deviation from the normal position	0	No
2	2: clearly visible and palpable horizontal loosening over 1mm	0	No
3	3: very clearly visible and palpable horizontal and vertical mobility - recognisable even without palpation, as loosening already occurs with cheek and tongue pressure	0	No
-9	NA: implausible value	0	Yes
